

UNotes

Allows Students to create and share Notes in the form of documents and for specific classes.

Audience

This app will Serve as a archive for notes and study guides built around specific courses.

Experience

Users will open and app and will be able to search for a course and filter whether they want a study guide, or past notes. Users can also share and upload their own notes, as well as rate the notes and guides posted by others.

Technical

Weekly Milestones

Week 1 - data processing

- Set up basic file processing to accept pdf's, images, etc
- Display the file for the end user
